HICKOK WAEKON

**WAE 76500**

**Ignition Coil Tester**

- Non-intrusive, quick check tool instantly verifies active or inactive coil operation
- Can be used to test coil on plug, coil near plug, and coil pack systems
- Sensitivity: 300 Gauss (30m T)
- Operating temperature: 14 to 122°F
- Overvoltage: CAT III 1000V AC

**SALE \$33.35**

**AUT PS100**

**PowerScan PS100**

- Performs every type of service including power injection, measurement, ground testing, polarity checks, continuity testing and components activation
- AVOMeter allows you to read voltage, current and resistance at the fingertip
- With a flip of the power switch, you have an instant hot/ground lead for powering up electrical components
- Instantly identifies positive, negative and open circuits
- Tests for bad ground contacts instantly
- Instantly checks continuity of switches, relays and diodes
- Circuit breaker protected
- Built-in Flashlight
- 20' cable provides excellent accessibility to test along the vehicle
